

## An Expense or An Investment?

*How much is this going to cost?*

It's a question nearly everyone asks. And you should. It's your hard-earned money, and you want to spend it wisely.

It's a question we'll be happy to answer, once we know what work will be involved in our helping you. You'll know – up front - exactly how much it's going to cost.

**But Better Estate Planning isn't really an expense ... it's an *investment in your future, and your family's future, that will pay dividends over and over again.***

If you have to face the challenge of paying for long term care, you'll be ready to do that in a way that assures that you won't be one of the many people who, sadly, wind up spending much ... or even all ... of their life savings paying for that care.

If you need help taking care of things during your lifetime, the person you have chosen to help you with that will be well-prepared to take over ... without wasted motion, without wasted expense, doing things the way *you* want them done.

You will save money – lots of it – in the cost of administration of your estate “when the time comes,” because Better Estate Planning will keep you out of probate ... and the person settling your affairs will know exactly what to look for, and what needs to be done, to carry out your plan, to make it work just as *you* intended.

You can even protect the inheritance you leave for your loved ones from financial risks they may some day encounter, like bankruptcy, divorce, or getting sued.

**Best of all, your investment in Better Estate Planning will start paying its biggest dividend immediately ... *peace of mind.***

You will know you have done all you can, the best you can, to preserve and protect your life savings, and to assure a financial legacy that can benefit your loved ones for generations to come. It's a great feeling!
